

Your month-by-month growing calendar

Here's a useful at-a-glance calendar to help you in planting your plot. Just use the search facility (Ctrl+F on a PC, Command+F on a Mac) to find the crop you are looking for. Because they are on one table, you can easily compare the busy times – for sowing and harvesting – and plan so that you have a steady stream of delicious produce. Bear in mind that, of course, there are regional variations to the times and that weather conditions may not be the same year on year.

Vegetable	Sowing/Planting & Harvesting times	Jan	Feb	March	April	May	June	July	Aug	Sept	Oct	Nov	Dec
Artichokes	Sowing/Planting				A	M							
	Harvesting							J	A	S			
Asparagus	Sowing/Planting				A								
	Harvesting					M	J
